ALL INDIA ORACLE USERS GROUP, PERFSYSTEMS HOLD TECH NIGHT

Chennai: The All India Oracle Users Group (AIOUG), in association with Perfsystems India, on Monday organised the All India Oracle Users Conference in the city to provide the Oracle technology and database professionals an opportunity to enhance their productivity and influence the quality, usability and support of Oracle technology in the country. According to J Raman Govindarajan, CEO, Perfsystems India, the Tech Night at Chennai gave a platform for expert Oracle users to present their case and share their experiences about Oracle Database, Tools and other Oracle products. The audience comprised working Oracle professionals in the areas of Development and Database Administration and the speakers included Raman Govindarajan, J Venkatakrishnan of Rittman Mead and Mithun Ashok of Oracle India. AIOUG is a non-profit organisation that provides Oracle technology and database professionals the opportunity to enhance their professional capacity in tune with the latest trends in the field. Perfsystems is adept in product development and consulting services in the areas of Database Administration, Security and Performance. » ENS
